

YOU'RE ALL DONE!

WE'VE TAKEN YOUR RESPONSES AND CREATED A PERSONALIZED SAFETY RECOMMENDATION JUST FOR YOU.

The safest home is one without a gun. You have significantly reduced the risk of someone getting shot. Still, there are important things you might want to consider to make sure you and those that you care about are as safe as can be:

- Most gun deaths are suicides. Men aged 45 or over are at the highest risk of gun suicide. Do you have someone in your life, maybe a friend or relative, who may have recently lost his job, or who is struggling with substance abuse, or has experienced some form of post-traumatic stress? It is definitely in their best interest to make sure they do not have access to a gun. If you believe someone you love is in a crisis please call [National Suicide Prevention Lifeline](https://www.nationalsuicideline.org/) - 1-800-273-TALK (8255)
- On average more than three women are murdered by their intimate partners each day. Advocates are available 24/7 to talk and help at [the National Domestic Violence Hotline](https://www.thehotline.org/) 1-800-799-7233 (SAFE)

RESOURCES

SAFE STORAGE INFORMATION

Whether or not you have a gun in your home, there are steps you can take to limit the dangers and risks that guns pose to you and your loved ones. Safety and storage devices are only as secure as the precautions taken to protect the key or combination to the lock. Read the [safe storage tips](#) to learn more.

HOW TO GET RID OF A GUN

Contact your local law enforcement to learn safe and lawful ways to permanently remove guns from the home.
